July 21, 2016

Network Upgrade

On July 26th, 2016 we will be performing a software upgrade to the FPRN. As a result of this upgrade expect the FPRN to have downtime.

PLEASE PLAN ACCORDINGLY!!!

Network Solutions

When using port 10000 to receive corrections you **must** turn on your NMEA (GGA) message string, and it must be set to broadcast at a rate of less than 30 seconds.

New Signals

Beginning on June 29th, 2016 we started recording the L5 signal. Rinex files are now available with this new signal.

New Constellation

Also, on June 29th, 2016 we started monitoring the Galileo satellites. Hopefully by the end of the year these satellites will be included in the Network solutions.

Announcements

On July 26, 2016 the FPRN will be undergoing software upgrades.

Expect the Network to have downtime.
