

FPRN News

September 13, 2017

Hurricane Irma

The storm has had a negative impact on approximately 20% of the FPRN. The following stations are currently down and unresponsive.

AVON, BOCA, BRTW, FLD7, FLGR, FLHS, FLLP, FLMB, FLPK, FLWD, FMYR, LBLL, MKEY, MTNT, OKCB, WACH

FDOT personnel will be visiting each of the sites to perform damage assessment and/or station recovery as soon as conditions allow.

New Products

Florida Custom Geoid Package

We now offer the Florida Custom Geoid Package (FPRNGD16B) for download on our website.

(under the Maps section)

Network Solutions

When using port 10000 to receive corrections you **must** turn on your NMEA (GGA) message string, and it must be set to broadcast at an interval of less than 30 seconds.

Rinex Service

We are experiencing problems with the Station Quality Summary page on the FPRN website. Most of the stations are of good quality but are being reported incorrectly on the web site. Be sure to check the File Availability page for more accurate reporting. If you are in need of a specific file go ahead and make the request. If the system does not respond within 24 hours, send an email requesting the information needed.
